2015-2016 Competitive Events Program

The Pennsylvania FBLA Competitive Events Program

The mission of the National Awards Program is to prepare students for successful careers in business through support for curriculum development and innovative assessment tools. To help meet this charge, the competitive events series has been developed for use in assessing students in the various knowledge, skills, and abilities that make up today's business education curriculum. The competitive events program allows members to demonstrate and validate their mastery of essential business concepts, skills, and knowledge.

The competitive events program has been correlated to the Business Education Curriculum Standards published by the National Business Education Association and the national career clusters.

In Pennsylvania, competitive events are offered in each of the state's 28 regions in December or January, and each region's winners advance to the State Leadership Conference in March/April. Winners of the events held at the State Leadership Conference are eligible to represent Pennsylvania at the National Leadership Conference in June.

Competitive events are divided into four categories: (1) individual events; (2) team events; (3) chapter events; and (4) recognition events. In order to participate in the events, members must have paid their state and national dues by the dates posted on the PA FBLA web site. A member may only enter one individual or team event with these exceptions: (1) members representing their chapters in the oral presentation components of chapter events may compete in an individual or team event; and (2) members may also be entered in recognition events in addition to individual and team events.

For more information on the competitive events program, visit the PA FBLA web site at www.pafblla.org. A complete set of guidelines is posted on the state web site in the competitive events section.
